SKILLS

- SQL
 - Joins
 - Subqueries
 - Common Table Expressions (CTEs)
 - Window Functions
 - Data Cleaning
 - Exploratory Data Analysis

Power BI

- DAX
- Power Query
- Data Modeling
- KPI Dashboards
- Interactive Reports

Excel

- Pivot Tables
- Pivot Charts
- XLOOKUP
- Dashboard Creation
- Data Cleaning

Python

- Pandas
- NumPy
- Matplotlib
- BeautifulSoup

Tableau

Git, GitHub

PROFILE

Aspiring Data Analyst with hands-on experience in SQL, Power BI, Tableau, Excel, and Python. Skilled in data cleaning, exploratory data analysis, dashboard development, and business reporting. Built multiple end-to-end analytics projects involving data transformation, visualization, and automation. Passionate about transforming raw data into actionable business insights and continuously improving analytical skills through practical projects.

PROJECTS

Power BI - Personal Fitness Analytics Dashboard

- Analyzed personal workout data collected from 2022-2026.
- Visualized 13,926 exercises performed across 984 gym sessions.
- Developed cards, performance trends, and progression tracking.
- Monitored long-term strength development across major compound lifts.

SQL - Exploratory Data Analysis Project

- GitHub: github.com/avinashmadduru/Exploratory_Data_Analysis
- Conducted exploratory analysis on layoffs dataset.
- Identified industry, company, and yearly layoff trends.
- Used aggregate functions, window functions, and CTEs.
- Generated actionable business insights from raw data.

Tableau - Airbnb Market Analysis Dashboard

- Created an interactive dashboard using Airbnb listing data.
- Analyzed pricing trends by bedroom count and zip code.
- Developed geographic visualizations to compare locations.
- Identified revenue trends and market opportunities.

Python - Amazon Price Tracker

- Developed a web scraping application using BeautifulSoup.
- Monitored Amazon product prices automatically.
- Implemented email notifications when prices met target thresholds.
- Demonstrated automation and data extraction capabilities.

Excel - Bike Sales Dashboard

- Built an interactive Excel dashboard using Pivot Tables and Charts.
- Analyzed purchasing behavior across customer demographics.
- Used slicers and filters to enable dynamic reporting.
- Identified trends based on age, gender, and commute distance.

EDUCATION

Master of Computer Applications (MCA) P.B Siddhartha College of Arts and Science	2025 - 2027
Bachelor of Computer Applications (BCA) P.B Siddhartha College of Arts and Science CGPA: 6.9	2021 - 2024
